NEW YORK UNIVERSITY
DEPARTMENT OF PSYCHOLOGY

PAID STUDY -- Must be 18 years or older.

Name of study: Emotional learning

Purpose of study: This is a 3-day study that explores how people learn to associate neutral and aversive events.

Name of experimenter: Shelby Bachman

Name of faculty supervisor: Dr. Elizabeth Phelps

Location of study: Meyer Building, 6 Washington Place, Room 890

Specific requirements:

18-35 years old, healthy, no psychiatric or neurological disorders, no medications, fluent in English, must not have participated in studies involving shock within the last 6 months

Type of activity:

You will view stimuli on a screen, press buttons, and receive mild electrical shocks on your wrist.

We will make non-invasive recordings of your skin conductance. You will also fill out several questionnaires.

Approximate length of time: This is a 3-day study. The three sessions will occur on three consecutive days, at the same time each day. Day 1 will last 30 minutes, day 2 will last 1 hour, and day 3 will last between 30 minutes and 1 hour.

Remuneration: On completion of the third day of the experiment, you will be paid $20/hour of total participation, for a possible total of $50 upon completion.
