Revised February 08

### Parent's or Guardian's Permission Form for Department Pool Participants Earning Credit

Your child, \_\_\_\_\_ is invited to take part in a study named Deal. The study is designed to learn more about how people make decisions. It is being conducted by Gaëlle Pierre who is the principal investigator, as part of her graduate training in the department of psychology, Graduate School of Arts & Sciences. The faculty sponsor of this work is Professor David Amodio, of the psychology department.

If you give permission for your child to be in this study, he or she will be asked to do the following: complete a series of decision-making tasks over the computer. Your child's participation will take about thirty minutes and he or she will receive 0.5 hours credit for laboratory participation towards the course research requirement. When your child completes the study, a thorough verbal and written explanation of it will be given to him/her.

There are no known risks associated with your child's participation in this research beyond those of everyday life. Although your child will receive no direct benefits for your participation in this study, this research may make your child more aware of how knowledge is discovered in psychology and how decisions are made.

Taking part in this study is voluntary. Not taking part or withdrawing after the study has begun will not affect your child's grade or academic standing in any way. If your child withdraws at any time, he or she will still receive the 0.5 hour's credits offered for taking part. Your child has the right to skip or not answer any questions he/she prefers not to answer.

Confidentiality of your child's research records will be strictly maintained by not collecting any identifying information. The data from the study will be kept until 5 years after publication, as recommended by the American Psychological Association, and then destroyed by shredding and computer files deleted.

If there is anything about the study or taking part in it that is unclear or that you do not understand, if you have questions or wish to report a research-related problem, you may contact the principal investigator, Gaëlle Pierre, at (212) 998-7687, [gaelle.pierre@nyu.edu](mailto:gaelle.pierre@nyu.edu), or Meyer 560 or the faculty sponsor, Prof. David Amodio at [david.amodio@nyu.edu](mailto:david.amodio@nyu.edu), (212) 998-3875, Meyer 782. For questions about your child's rights as a research participant, you may contact the University Committee on Activities Involving Human Subjects (UCAIHS), NYU, (212) 998-4808 or [ask.humansubjects@nyu.edu](mailto:ask.humansubjects@nyu.edu), 665 Broadway, Suite 804, New York, NY 10012.

*You have received a copy of this permission document to keep.*
